

Not just for techheads ...

... POV is an opportunity to share.

POV is using technology to record your point-of-view ... video and audio with no hands required! Get your hands on technology that allows you to create re-usable cost effective learning resources. Network with trainers, developers, researchers and industry and benefit from first hand accounts of how they are using POV.

AUPOV 2009 is an inaugural networked learning conference this year on the 19 June 2009 in Wollongong, NSW Australia .
