

# PROGRAM

A U P O V 

**INAUGURAL CONFERENCE**  
**18th & 19th June, 2009**

City Beach Function Centre  
Wollongong, NSW  
AUSTRALIA

## **Welcome**

**The AUPOV09 conference draws together Delegates, Speakers and Presenters from Australia and New Zealand in a showcase of talent bringing to this forum solutions for training using point-of-view and related technologies.**

**This inaugural networked event showcases both the use of point-of-view technologies in educational organisations and research underpinning its application for emergent workplace training industries.**

## **Spectrum**

Delegates at AUPOV09 are representative of private, enterprise, community and government registered training organisations, the Australian Navy, Australian Armed Forces, Universities, commercial publishers, educational consultancy, medical training, POV manufacturing and retail distribution.

Delegates, Speakers and Presenters have travelled from a number of diverse locations including New Zealand, Karratha, Adelaide, Perth and Brisbane to attend this inaugural event.

## **Sponsors**

The organisers of AUPOV09 acknowledge and wish to thank CVSeek for their startup funding sponsorship, TAFE NSW Illawarra for their organisational prowess and commitment to supporting new and emergent technologies in education. Brightcookie is thanked for their conference web hosting and continued online support for this initiative.

## **Acknowledgements**

The organisers wish to acknowledge Jayne Bachelor for her tireless work in bringing this event together and to the City Beach Function Centre for their hospitality for this event.

Many thanks are extended to all who have attended this event and to those who have expressed their support in many other networked ways online.

We envisage that this event will occur again in a year's time, mid-semester, mid-spring in an ocean side location in Sydney central.
